Week 7: SQL Query Implementation

Perform Basic SQL Queries

1. Display all customer details

```
SQL> SELECT * FROM CUSTOMER;

CUSTOMER_I FIRST_NAME                     LAST_NAME
---------- ------------------------------ ------------------------------
EMAIL                                          PHONE CREATED_A
---------------------------------------- ---------- ---------
S101       Akshaya                         Anantharaj
akshayaanantharaj07@gmail.com             8438749153 01-JUN-24

S102       Divya                           Sri
divyasri14@gmail.com                      8124132143 08-AUG-24

S103       Vimal                           Krishna
vimalmp13@gmail.com                       8667379153 15-MAY-24

CUSTOMER_I FIRST_NAME                     LAST_NAME
---------- ------------------------------ ------------------------------
EMAIL                                          PHONE CREATED_A
---------------------------------------- ---------- ---------
S104       Sri                             Vatsan
srivatsan17@gmail.com                     8608625570 07-MAY-25

S105       Pooja                           Shree
pooja06@gmail.com                         9124659140 01-JAN-23

S106       Reena                           Vijay
reenav122@gmail.com                       9876543210 10-JAN-20

CUSTOMER_I FIRST_NAME                     LAST_NAME
---------- ------------------------------ ------------------------------
EMAIL                                          PHONE CREATED_A
---------------------------------------- ---------- ---------
S107       Amala                           Arun
amalaasaji@gmail.com                      9876913420 01-FEB-21

S108       Joseph                          Vijay
jvcm26@gmail.com                          6734897057 01-MAY-20
```

```
S109       Roselin                         Mary
rose43@gmail.com                          7655791420 10-AUG-26

CUSTOMER_I FIRST_NAME                     LAST_NAME
---------- ------------------------------ ------------------------------
EMAIL                                          PHONE CREATED_A
---------------------------------------- ---------- ---------
S110       Evangeline                      Sheeba
angelse@gmail.com                         9870654312 18-DEC-22

10 rows selected.
```

2.Display all available movies:

```
SQL> SELECT * FROM PRODUCT;

PRODUCT
-------
PRODUCT_NAME
--------------------------------------------------------------------------------
CATEGOR      PRICE STOCK_QUANTITY
------- ---------- --------------
P001
Leo
C001           180             50

P002
Good Night
C002           150             40

PRODUCT
-------
PRODUCT_NAME
--------------------------------------------------------------------------------
CATEGOR      PRICE STOCK_QUANTITY
------- ---------- --------------

P003
96
C003           160             35

P004
Love Today

PRODUCT
-------

Avengers
C009           200             50

PRODUCT
-------
PRODUCT_NAME
--------------------------------------------------------------------------------
CATEGOR      PRICE STOCK_QUANTITY
------- ---------- --------------

P010
The Lion King
C010           200             35

10 rows selected.
```

Retrieve movie names and ticket prices only

```
SQL> SELECT PRODUCT_NAME, PRICE FROM PRODUCT;

PRODUCT_NAME
--------------------------------------------------------------------------------
     PRICE
----------
Leo
       180

Good Night
       150

96
       160

PRODUCT_NAME
--------------------------------------------------------------------------------
     PRICE
----------
Love Today
       150

Conjuring
       180

Vikram
       200

PRODUCT_NAME
--------------------------------------------------------------------------------
     PRICE
----------
Interstellar
       220

Toy Story
       160

Avengers
       200

PRODUCT_NAME
--------------------------------------------------------------------------------
     PRICE
----------
The Lion King
       200

10 rows selected.
```

4. Display all bookings placed by customers

```
SQL> SELECT * FROM BOOKINGS;

BOOKING_ID CUSTOMER_I BOOKING_D TOTAL_AMOUNT BOOKING_STATUS
---------- ---------- --------- ------------ --------------------
B001       S101       15-SEP-26          360 Confirmed
B002       S102       17-SEP-26          300 Pending
B003       S103       19-SEP-26          480 Completed
B004       S104       21-SEP-26          400 Confirmed
B005       S105       23-SEP-26          340 Pending
B006       S106       24-SEP-26          440 Completed
B007       S107       25-SEP-26          320 Confirmed
B008       S108       26-SEP-26          360 Pending
B009       S109       27-SEP-26          400 Completed
B010       S110       28-SEP-26          340 Confirmed

10 rows selected.
```

5. Retrieve Payment details

```
SQL> SELECT * FROM PAYMENT;

PAYMENT_ID BOOKING_ID PAYMENT_D PAYMENT_MODE         PAYMENT_STATUS
---------- ---------- --------- -------------------- ---------------
TRANSACTION_AMOUNT
------------------
P001       B001       15-SEP-26 UPI                  Success
               360

P002       B002       17-SEP-26 Card                 Pending
               300

P003       B003       19-SEP-26 UPI                  Success
               480

PAYMENT_ID BOOKING_ID PAYMENT_D PAYMENT_MODE         PAYMENT_STATUS
---------- ---------- --------- -------------------- ---------------
TRANSACTION_AMOUNT
------------------
P004       B004       21-SEP-26 Cash                 Success
               400

P005       B005       23-SEP-26 Card                 Failed
               340

P006       B006       24-SEP-26 Net Banking          Success
               440

PAYMENT_ID BOOKING_ID PAYMENT_D PAYMENT_MODE         PAYMENT_STATUS
---------- ---------- --------- -------------------- ---------------

P007       B007       25-SEP-26 UPI                  Success
               320

P008       B008       26-SEP-26 Card                 Pending
               360

P009       B009       27-SEP-26 UPI                  Success
               400

PAYMENT_ID BOOKING_ID PAYMENT_D PAYMENT_MODE         PAYMENT_STATUS
---------- ---------- --------- -------------------- ---------------
TRANSACTION_AMOUNT
------------------
P010       B010       28-SEP-26 Cash                 Failed
               340

10 rows selected.
```

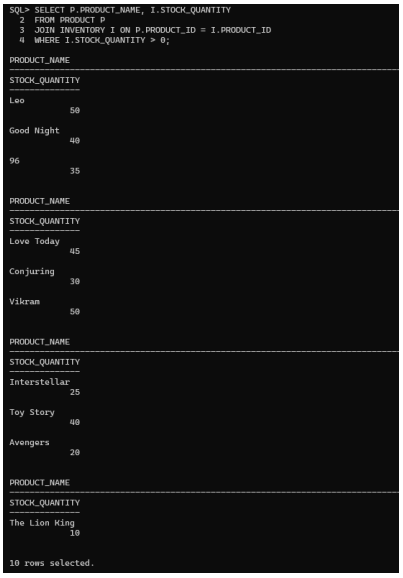

Apply Filtering Conditions Using WHERE

1. **Find movies with ticket prices greater than ₹500**

```
SQL> SELECT * FROM PRODUCT WHERE PRICE > 500;

no rows selected
```

2. **Display movies available in stock.**

```
SQL> SELECT P.PRODUCT_NAME, I.STOCK_QUANTITY
  2  FROM PRODUCT P
  3  JOIN INVENTORY I ON P.PRODUCT_ID = I.PRODUCT_ID
  4  WHERE I.STOCK_QUANTITY > 0;

PRODUCT_NAME
--------------------------------------------------------------------------------
STOCK_QUANTITY
--------------
Leo
            50

Good Night
            40

96
            35

PRODUCT_NAME
--------------------------------------------------------------------------------
STOCK_QUANTITY
--------------
Love Today
            45

Conjuring
            30

Vikram
            50

PRODUCT_NAME
--------------------------------------------------------------------------------
STOCK_QUANTITY
--------------
Interstellar
            25

Toy Story
            40

Avengers
            20

PRODUCT_NAME
--------------------------------------------------------------------------------
STOCK_QUANTITY
--------------
The Lion King
            10

10 rows selected.
```

3. **Display completed bookings**

```
SQL> SELECT * FROM BOOKINGS WHERE BOOKING_STATUS = 'Completed';

BOOKING_ID CUSTOMER_I BOOKING_D TOTAL_AMOUNT BOOKING_STATUS
---------- ---------- --------- ------------ --------------------
B003       S103       19-SEP-26          480 Completed
B006       S106       24-SEP-26          440 Completed
B009       S109       27-SEP-26          400 Completed
```

4. **Find reviews with ratings above 4**

```
SQL> SELECT * FROM MOVIE_REVIEW WHERE RATING > 4;

REVIEW_ CUSTOME MOVIE_I     RATING
------- ------- ------- ----------
REVIEW_COMMENT
--------------------------------------------------------------
REVIEW_DA
---------
R101    S101    M101             5
Excellent and entertaining movie
20-SEP-26

R104    S104    M101             5
Amazing movie
23-SEP-26

S104       Sri                        Vatsan                    srivatsan17@gmail.com                  8608625570 07-MAY-25
S103       Vimal                      Krishna                   vimalmp13@gmail.com                    8667379153 15-MAY-24

10 rows selected.
```

3. **Display the five most expensive movies.**

```
SQL> SELECT * FROM (SELECT * FROM PRODUCT ORDER BY PRICE DESC) WHERE ROWNUM <= 5;

PRODUCT PRODUCT_NAME         CATEGOR  PRICE STOCK_QUANTITY
------- -------------------- ------- ------ --------------
P007    Interstellar         C007       220             25
P006    Vikram               C006       200             50
P010    The Lion King        C010       200             35
P009    Avengers             C009       200             50
P001    Leo                  C001       180             50
```

4. **Display the latest bookings first.**

```
SQL> SELECT * FROM BOOKINGS ORDER BY BOOKING_Date DESC;

BOOKING_ID CUSTOMER_I BOOKING_D TOTAL_AMOUNT BOOKING_STATUS
---------- ---------- --------- ------------ --------------------
B010       S110       28-SEP-26          340 Confirmed
B009       S109       27-SEP-26          400 Completed
B008       S108       26-SEP-26          360 Pending
B007       S107       25-SEP-26          320 Confirmed
B006       S106       24-SEP-26          440 Completed
B005       S105       23-SEP-26          340 Pending
B004       S104       21-SEP-26          400 Confirmed
B003       S103       19-SEP-26          480 Completed
B002       S102       17-SEP-26          300 Pending
B001       S101       15-SEP-26          360 Confirmed

10 rows selected.
```

4)Retrieve unique values using DISTINCT

1. **Display unique movie categories.**

```
SQL> SELECT DISTINCT CATEGORY_NAME FROM CATEGORY;

CATEGORY_NAME
------------------------------------------------------------
Action
Adventure
Animation
Comedy
Drama
Family
Horror
Romance
Sci-Fic
Thriller

10 rows selected.
```

2. **Display different payment methods.**

```
SQL> SELECT DISTINCT PAYMENT_MODE FROM PAYMENT;

PAYMENT_MODE
--------------------
Net Banking
Card
Cash
UPI
```

5)Search movies based on conditions

1. Find movies within a price range.

```
SQL> SELECT * FROM PRODUCT
  2  WHERE PRICE BETWEEN 200 AND 500;

PRODUCT PRODUCT_NAME         CATEGOR  PRICE STOCK_QUANTITY
------- -------------------- ------- ------ --------------
P006    Vikram               C006       200             50
P007    Interstellar         C007       220             25
P009    Avengers             C009       200             50
P010    The Lion King        C010       200             35
```

2. Display movies belonging to a particular category.

```
SQL> SELECT P.PRODUCT_NAME, C.CATEGORY_NAME
  2  FROM PRODUCT P
  3  JOIN CATEGORY C ON P.CATEGORY_ID = C.CATEGORY_ID;

PRODUCT_NAME
--------------------------------------------------------------------------------
CATEGORY_NAME
--------------------------------------------------------------------------------
Leo
Action

Good Night
Comedy

96
Drama

PRODUCT_NAME
--------------------------------------------------------------------------------
CATEGORY_NAME
--------------------------------------------------------------------------------
Love Today
Romance

Conjuring
Horror

Vikram
Thriller

PRODUCT_NAME
--------------------------------------------------------------------------------
CATEGORY_NAME
--------------------------------------------------------------------------------
Interstellar

Avengers                         20
The Lion King                    10

10 rows selected.
```

4.Search for a movie by name.

```
SQL> SELECT * FROM PRODUCT WHERE PRODUCT_NAME = 'Leo';

PRODUCT PRODUCT_NAME         CATEGOR  PRICE STOCK_QUANTITY
------- -------------------- ------- ------ --------------
P001    Leo                  C001       180             50
```

5. Find movies with low stock.

```
SQL> SELECT P.PRODUCT_NAME, I.STOCK_QUANTITY
  2  FROM PRODUCT P
  3  JOIN INVENTORY I ON P.PRODUCT_ID = I.PRODUCT_ID
  4  WHERE I.STOCK_QUANTITY < 30;

PRODUCT_NAME         STOCK_QUANTITY
-------------------- --------------
Interstellar                     25
Avengers                         20
The Lion King                    10
```

6. Retrieve customer and movie information using JOIN:

1. Display customer details with their orders.

```
SQL> SELECT C.FIRST_NAME, C.LAST_NAME,
  2         B.BOOKING_ID, B.BOOKING_DATE
  3  FROM CUSTOMER C
  4  JOIN BOOKINGS B
  5  ON C.CUSTOMER_ID = B.CUSTOMER_ID;

FIRST_NAME                     LAST_NAME                      BOOKING_ID BOOKING_D
------------------------------ ------------------------------ ---------- ---------
Akshaya                        Anantharaj                     B001       15-SEP-26
Divya                          Sri                            B002       17-SEP-26
Vimal                          Krishna                        B003       19-SEP-26

Avengers                200 Adventure
The Lion King           200 Family

10 rows selected.
```

3. Find customers who booked a particular movie.

```
SQL> SELECT DISTINCT C.FIRST_NAME, C.LAST_NAME,
  2         P.PRODUCT_NAME
  3  FROM CUSTOMER C
  4  JOIN BOOKINGS B
  5  ON C.CUSTOMER_ID = B.CUSTOMER_ID
  6  JOIN BOOKING_DETAILS BD
  7  ON B.BOOKING_ID = BD.BOOKING_ID
  8  JOIN PRODUCT P
  9  ON BD.MOVIE_ID = P.PRODUCT_ID
 10  WHERE P.PRODUCT_NAME = 'Leo';

FIRST_NAME                     LAST_NAME                      PRODUCT_NAME
------------------------------ ------------------------------ --------------------
Akshaya                        Anantharaj                     Leo
```

4. Display movies booked by each customer

```
SQL> SELECT C.FIRST_NAME, C.LAST_NAME, P.PRODUCT_NAME FROM CUSTOMER C
  2  JOIN BOOKINGS B ON C.CUSTOMER_ID = B.CUSTOMER_ID
  3  JOIN BOOKING_DETAILS BD ON B.BOOKING_ID = BD.BOOKING_ID
  4  JOIN PRODUCT P ON BD.MOVIE_ID = P.PRODUCT_ID;

FIRST_NAME                     LAST_NAME                      PRODUCT_NAME
------------------------------ ------------------------------ --------------------
Akshaya                        Anantharaj                     Leo
Divya                          Sri                            Good Night
Vimal                          Krishna                        96
Sri                            Vatsan                         Love Today
Pooja                          Shree                          Conjuring
Reena                          Vijay                          Vikram
Amala                          Arun                           Interstellar
Joseph                         Vijay                          Toy Story
Roselin                        Mary                           Avengers
Evangeline                     Sheeba                         The Lion King

10 rows selected.
```

7. Apply multiple filtering conditions:

1. Find movies costing more than ₹500.

```
SQL> SELECT P.PRODUCT_ID,P.PRODUCT_NAME,C.CATEGORY_NAME,P.PRICE
  2  FROM PRODUCT P JOIN CATEGORY C ON P.CATEGORY_ID = C.CATEGORY_ID
  3  WHERE P.PRICE >100 AND P.CATEGORY_ID = 'C001' ORDER BY P.PRICE DESC;

PRODUCT PRODUCT_NAME         CATEGORY_NAME                                                                                    PRICE
------- -------------------- ------------------------------------------------------------------------------------------------ ------
P001    Leo                  Action                                                                                             180
```

2.Display products whose names contain the word 'Movie'.

```
SQL> SELECT *
  2  FROM PRODUCT
  3  WHERE PRODUCT_NAME LIKE '%Product%';

no rows selected
```

3. Display customer details and booking status for bookings within a date range.

```
SQL> SELECT C.FIRST_NAME, C.LAST_NAME,
  2         B.BOOKING_ID, B.BOOKING_DATE,
  3         B.BOOKING_STATUS
  4  FROM CUSTOMER C
  5  JOIN BOOKINGS B
  6  ON C.CUSTOMER_ID = B.CUSTOMER_ID
  7  WHERE B.BOOKING_DATE >= TO_DATE('01-09-2026','DD-MM-YYYY')
  8  AND B.BOOKING_DATE < TO_DATE('01-10-2026','DD-MM-YYYY');

FIRST_NAME      LAST_NAME       BOOKING_ID   BOOKING_DATE BOOKING_STATUS
--------------- --------------- ------------ ------------ ---------------
Akshaya         Anantharaj      B001         15-SEP-26    Confirmed
Divya           Sri             B002         17-SEP-26    Pending
Vimal           Krishna         B003         19-SEP-26    Completed
